Junior candidates: Salary circa €20,000 - €30,000

Intermediate: Salary circa €30,000 - €40,000

Senior: Salary circa €45,000 - €60,000

The Company – Computershare Governance Services

We are the world's largest -- and only global -- share registry, and a leading provider of financial market services and technology to the global securities industry. Our experienced professionals, almost 10,000 strong, operate in seventeen countries, on five continents, providing services and solutions to listed companies, investors, employees, exchanges and other financial institutions. Together, we manage more than 100 million shareholder accounts for over 14,000 corporations around the world.

We develop our software from 4 main bases, Monaghan, Bristol (UK), Shelton (USA) and Melbourne (Australia). Our Corporate Management system, GEMS, is developed out of our Monaghan office and due to expansion we are now looking for skilled energetic developers to join our ever growing team. You will need the following key skills: -

- Experience in the development of distributed enterprise software solutions in a Microsoft environment.
- Experience with some or all of these technologies: -
 - C#
 - ASP.Net and AJAX
 - WWF and WCF
 - SQL Server 2005
- Dedicated to delivering the highest quality software possible
- Determined to meet the challenging timelines our market demands
- Be willing to celebrate our successes.

If you're interested in the challenge, please send your CV to hr@computershare.ie.
